TO THE ROOTS.

A School Boy Digs Down to Find Food to Build Him Right.

A good, straightforward letter was recently sent'by a bright, clever youth which shows his ability to go to the bottom of a trouble and rectify it.

He says, "I attended High School for three years, but made little progress. I did not enjoy good health; my food was not properly digested; this caused headache, and hence I could not study. I tried taking exercise in the football field, but was unable to stand it as it always increased my headache.

"During the summer holidays I began eating Grape-Nuts, and the benefit was immediate, the headache stopped, my food digested properly, so that I had no more stomach trouble, my general health improved, my weight increased and my brain

was clear and bright "The result was that this summer I procured Junior Leaving and Junior Matriculation Standing. I also took my place on the football team as half back and played in all the games of 1901.

This wonderful increase in mental and physical health I attribute to no other cause than the nourishment I got from Grape-Nuts. I recommend them to everyly who desires health. I am only a boy of seventeen years, but my weight is 148 ads and this weight was procured solely the use of Grape-Nuts." Name given Postum Cereal Co., Battle Creek, Mich. There is a reason why Grape-Nuts should perrect a delicate physical or a sluggish mental condition. The food is highly nutri-tious and is predigested so that it helps It is also rich in the phosphates

Richard Harding Davis Story.

New York Mail and Express. A story is told about Richard Harding Davis, who makes no pretense of being planist, but who does play the gultar and sing well. Having composed a musical setting to Kipling's "Danny Deever" with that instrument, he picked it out, quite in the secrecy of his home, on the piano. The accompaniment to his voice consisted of a few chords, which, from frequent repeti-

tions, he fixed in his memory. One night Mr. Davis was at an evening party of musical people, many of them celebrated composers. As a joke some one asked him to play one of his own compositions. To every one's surprise he consented and boldy went to the piano, where he eyed the keys in a puzzled way. Turning to

Paderewski, he said: "I can't find the starting note. I composed my tune on a Steinway, and this is a Weber. Where would the note that is under the W on a Steinway be on a

Weber?

If the duty were the only obstacle home in Chicago to-morrow for a week's of coal in every American market would long ago have induced the foreigners to

Prejudiced Judicial Dictum.

Chicago News. The passionate and unjudicial tone of the decision in which the Missouri court declares that the mule is a "vicious and treacherous animal" deprives the opinion of any real weight. Whatever experience the court may have had with mules, the courtroom is not the place in which to give way to personal prejudices.
